Oneskive Tool
 900
 1-6

A unique tool for simultaneous internal and external skiving which minimize time consumption. This skive tool can only be used with our skiving machine TwinSkive 5-50. It is suitable for spiral hoses with 4-6 reinforcement layers from 1/2" to 2". A complete tool consists of a OST tool holder, a mandrel, two OST short or long arms, two external skiving knives and one internal skiving knife.
